

WATCHDOG

24/7 MONITORING, SECURITY & SUPPORT

PROGRAM OVERVIEW
FOR INDEPENDENT ATM OPERATORS

MONITORING THAT NEVER SLEEPS

Watchdog monitors, protects, and supports your machines 24/7, so you stay a step ahead of fraud, downtime, and costly surprises. No sketchy Wi-Fi. No mystery failures.

UPTIME

FAULTS FOUND AND FIXED
REMOVED, BEFORE THEY COST
YOU.

SECURITY

HARDENED COMMS THAT
SHUT OUT TAMPERING.

CASH

LIVE LEVELS AND LOW-CASH
ALERTS ON EVERY TERMINAL.

SUPPORT

SPECIALISTS DEDICATED TO ATM
NETWORK OPERATIONS.

ATM CRIME IS MOVING FAST

SHARE OF REPORTED U.S. ATM CRIME

- Jackpotting and cash-out attacks 72%
- All other reported ATM crime 28%

Source: ATMIA Center for Cash Management Intelligence and Security, Nov. 2025 (year to date)

Attacks on the machine itself now lead reported U.S. ATM crime. Each one begins at a terminal nobody is watching.

ATM MONITORING & SECURITY

WATCHDOG

PROACTIVE ATM MONITORING THAT NEVER SLEEPS

WHAT YOU GET, AND WHY IT PAYS

- ✓ **Stronger, safer connections.** A manufacturer-approved cellular modem that replaces your existing modem on a private, managed network.
- ✓ **Uptime and revenue protection.** Faults resolved remotely before they become outages. More uptime, more transactions.
- ✓ **Real-time threat protection.** A hardened environment that blocks tampering, unauthorized access, and man-in-the-middle attacks.
- ✓ **Journal and dispute handling.** Every journal sequence stored automatically and retrievable instantly for disputes.
- ✓ **Fully managed monitoring.** We watch terminal health, faults, and component status for you. No reports to pull.
- ✓ **Secure software management.** Remote updates and config changes keep you compliant with no USB sticks or truck rolls.
- ✓ **Cash management intelligence.** Live cash levels and automatic low-cash alerts, so you restock before the machine goes dark.
- ✓ **Expert support.** Dedicated help from people who work ATM networks all day, not a general help desk.

HOW IT WORKS

01

Install the modem

The Watchdog cellular modem takes the place of your existing modem.

02

We connect

The terminal comes online in a hardened, monitored environment.

03

We watch

Health, cash, and security are monitored around the clock on your behalf.

04

We fix it

Most issues are resolved remotely before you would have noticed them.

QUESTIONS, ANSWERED

Do I have to monitor anything myself?

No. Monitoring is fully managed. We surface and resolve issues without action from you.

How do software updates happen?

Remotely and securely. No USB sticks, no on-site work, and you stay current with scheme requirements.

What is installed at the ATM?

A Watchdog cellular modem, installed in place of your existing modem and managed by us.

Will it cut down my service calls?

Yes. Remote diagnostics, config changes, and password resets eliminate a large share of truck rolls.

"Watchdog has transformed our ATM security operations. We've seen a 92% reduction in fraudulent transactions since implementation."

VP OF OPERATIONS, REGIONAL BANK
